Description & Key Benefits

Gloss-forward, body-shop-safe dressing that revives color and lays down a clean, uniform sheen without greasy feel. Conditioning agents help defend against sun and wear while keeping surfaces soft and supple.

- Water-based & silicone-free — safe around body shops
- Even, low-streak application; buildable sheen
- Helps condition plastics, rubber, and vinyl
- Non-flammable; interior-safe when used as directed

Suitable Surfaces / Materials

Dashboards, door panels, consoles, interior trims, rubber seals, vinyl surfaces (always spot-test).

Do Not Use On / Limitations

Do not use on pedals/steering wheel or high-touch areas where slip is a concern. Avoid hot surfaces. For exterior, limit to trims (not tires).

Dilution Chart

Task	Dilution (Product:Water)	Notes
Interior plastics/rubber/vinyl	RTU to 1:3	Prime applicator; spread thin; buff excess for uniform gloss

Directions for Use

Work on a cool, shaded interior. Vacuum/wipe dust. Apply a small amount to a foam or microfiber applicator (avoid overspray); spread a thin, even coat in straight, overlapping passes. After a short set time, buff off any excess with a clean edgeless microfiber. For softer sheen, dilute up to 1:3. Layer for more gloss; maintain with gentle interior cleaners.
